

Cypress Water Treatment Plant Tour

4801 Big Ed Neal Dr., Wichita Falls, TX 76310

The Cypress Water Treatment Facility consists of three conventional surface water treatment plants and one Microfiltration/Reverse Osmosis advanced treatment plant. It was also the first 50% Wastewater Direct Potable Reuse Plant in the United States from July 2014 – July 2015.

PowerSeal Tour – Fitting Solutions for Harsh Environments

701 Pleasant View Drive, Wichita Falls, TX 76306

- PowerSeal Pipeline Products Corporation was formed in 1985 when assets of the Special Products Division of the Clow Corporation were purchased by Edward J. Powers, a vice president and 25-year employee of Clow.
- The headquarters of the company and its manufacturing are in Wichita Falls, Texas where its skilled employees are engaged in the design, manufacture, and sale of a complete line of the highest quality pipeline accessories and tools available.
- The end products are primarily used by fluid and gas distribution construction industries for the repair, maintenance, and new construction of potable water and sanitary sewer lines, agricultural irrigation lines, natural gas distribution lines, and low-pressure oil gathering lines.
